Skill & Knowledge/Qualifications Required:

- B.Tech/BE Computer Science, E&C, IT or MCA.
- Should be fluent in C++/or Java and Object Oriented Programming.
- Good Communication Skills.

Company Profile:

Quark Software Inc. was founded in Denver, Colorado, USA in 1981 with the mission to reinvent how content creators and creative professionals bring their visions to life. Over the past 35 years our solutions have made an indelible mark on the processes for creating high-fidelity, engaging and omni-channel content. Today, with the leading content automation platform, Quark infuses automation into every stage of the creation, management, publishing and delivery of today’s most important content.

Quark offers the only end-to-end content automation platform that enables the creation, management, publishing and delivery of content across print, Web and digital channels. Whether creating regulatory documentation, policies and procedures, investment research reports or interactive marketing communications, the world’s most recognized brands are modernizing their content strategies and processes with Quark solutions.

Quark’s vision is to leverage automation to transform the entire lifecycle of business-critical content to make the world’s most innovative organizations more efficient, more effective, and more competitive. Leaders in industries such as finance, manufacturing, energy, and government are using Quark products to reduce costs, save time, improve consistency and make their content shine.

Some notable and successful customers are: HSBC, IBM, Franklin Templeton Investments, Standard & Poor’s, UNICEF, Emirates Airlines, UNICEF, US department of Energy, Janssen, National Bank of Canada, METRO, LIBERUM and many others!

Quark offers a wide range of products from customizable solutions for large organizations in government, finance and manufacturing through brand management and design software for agencies, marketing departments and designers.
In addition to the corporate headquarters in Denver, USA, Quark has offices around the world, in London, Dublin, St Petersburg, FL and Hamburg. This opening is for the India Development Center, based in Chandigarh/Mohali
